

The Little Warriors

Do you know how to protect your bodies? The kids in the pictures below do not quite seem to know how to do so! They have no clothes on and people can easily look at their body parts. Besides, they can easily catch a cold. Can you take some colored pencils and draw some clothes to cover their bodies?

Both boys and girls have their body parts that are particularly private, we call them "private parts". Do you know where they are?

Both boys and girls must protect their private parts, we should not let people look at or touch them. Therefore, we always put on clothes to cover our bodies, we wear swimming suits and never show our private parts when we go swimming! Let us learn how to protect ourselves and be a brave and smart kid!
